Email Date: June 20, 2013

SUBJECT LINE: Important Preparation for Webinar: Your Questions Needed

This email is being sent on behalf of Karen Merrikin, State Health Care Innovation Planning Project Director.

Dear SHCIP Feedback Network Members,

We are in the process of preparing next week's State Health Care Innovation Planning Webinar. We need your assistance to shape the webinar's content. Please take a few minutes to send questions you have about the six-month SHCIP planning process and/or the five-year health innovation plan that is being drafted to simquestions@hca.wa.gov. All questions submitted will be reviewed by staff. It will be helpful if you send questions as soon as possible (*no later than 5 pm Monday*).

Update on the Webinar and the SHCIP planning process:

- The June 27 webinar will take place from 11 am to 12:30 pm. It is the first of four scheduled webinar events. During the first webinar, we will provide a broad overview. Participants also will meet and hear from a few of the "stream leaders" directing specific aspects of the work.
- If you have not yet registered for the webinar, you can do so by [clicking here](#).
[Link: <https://www2.gotomeeting.com/register/882623002>] Please Note: All questions submitted during the event will be recorded. However, because more than 200 people are already registered, we will have limited time to respond *during* the webinar. Submitting your questions now will help us plan the content to meet your needs.
- The Feedback Network's comments are already helping to shape the SHCIP planning process. Here are examples of adjustments we have already made or are in the process of making:
 - Revisions to the Vision and Aims
 - Stronger focus on patient-centered/whole person care
 - Recognition of social determinants and equity
 - Alignment of the innovation plan with current promising public-private state efforts
 - Considerations for intersecting health education and patient engagement
 - Emphasis on alignment of consumer-provider perspectives, education, and more
 - Incorporation of oral health

Invite others to join:

Finally, State Health Care Innovation Planning is an open process. If you would like to invite others to

attend the webinar and/or join the Feedback Network, please feel free to share this email. To register for the webinar, click the link above. To sign up for the Feedback Network, send a request to simquestions@hca.wa.gov.

- Children living in poverty and impoverished environments (family social issues) should be included in “special needs populations”
